

Team Name: sdmay24-08

Team Members: Andrew Sailer, Jesse Gillingham, Cody Draper, Akash Setti

Report Period: Sept 11-Sept 24

### **Summary of Progress in this Period**

Verifying that the simulation environment is correct. Working on CCDrone.py to make sure rewards collected by the drone scales correctly with the number of rewards generated and the size of the world. Commenting and improving readability of code.

---

### **Pending Issues**

Git issues.

---

### **Plans for Upcoming Reporting Period**

Be able to prove that CCDrone.py is working properly and the environment is being simulated correctly.

Commenting and improving readability of code.

Add requirements file, to install python packages. (pip freeze?)

Update the ReadMe.md with instructions to run the program, and file information.
